Cash Counters and Sorters boost efficiency and productivity

Managing cash requires focused attention. As cannabis is a cash business, counting and securing money is most important and time consuming. Our cash counters and sorters free your employees from labor-intensive cash handling with far greater speed and efficiency. Our broad selection enables you to choose the right product to suit your business at any stage.

AccuCASH Cash Counters and Sorters have best-in-class technology with dual CIS sensors. The AC-Mini, AC-3, and AC-50 are each capable of batch totals up to 200 notes. Sorters are

capable of serial number capture for rigorous tracking, counterfeit detection, and fitness sorting. They each have convenient large-screen displays that let the user assign customer presets for special jobs.

Our modular AC-60 High Speed Sorter is ideal for handling large volumes of cash. It comes standard with 4 sorting pockets offering a batch total of up to 500 notes and can be expanded up to 16 pockets with each additional module having 2 pockets with batch totals of 500.

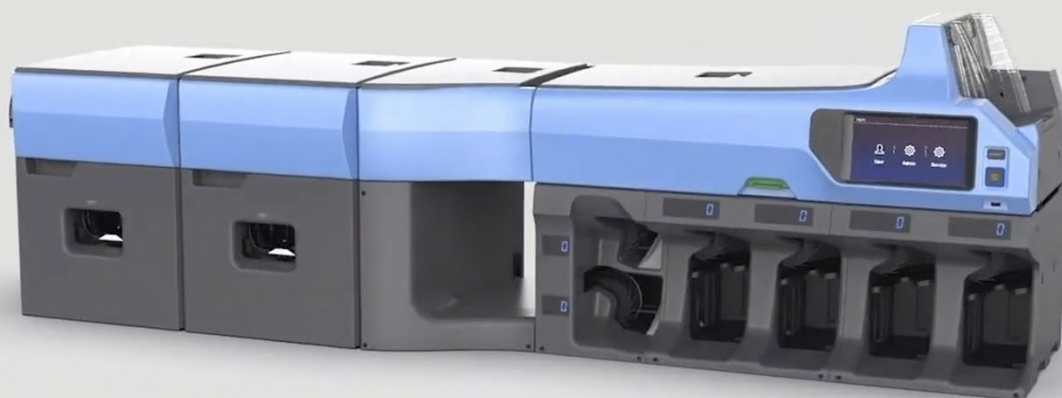

AC-MINI CASH COUNTER This fast, single-pocket counter is lightweight and is flexible enough to meet the needs of your business. It comes standard with 1 sorting pocket which offers a batch total of 200 notes and can easily switch between currencies. Its 4.3 in. touchscreen display is easy to read and use.

AC-3 CASH SORTER Its Dual CIS sensors are the latest technology and best-in-class. The AC-3 comes standard with 2 sorting pockets with a batch total up to 200 notes and one reject pocket with the capacity of up to 100 notes. It has the ability to store multiple denominations for easy switching between currencies.

AC-50 4+1 POCKET CASH SORTER This heavy-duty high-speed sorter is small enough to fit on a counter or tabletop. The AC-50 comes standard with 4 sorting pockets with a batch total up to 200 notes and 1 reject pocket with the capacity of up to 100 notes. Its large 7in. detachable display has clear readouts with touch screen buttons for ease of use.

AC-60 HIGH SPEED MULTI-POCKET CASH SORTER & STRAPPER Operating from its crystal-clear 7 in. display, our most advanced device comes standard with 4 sorting pockets with a batch total up to 500 notes and two 200-note reject pockets. It can be expanded to a whopping 16 pockets with each additional module having 2 pockets with batch totals of 500 each. Its optional strapping module will strap 100 banknotes every six seconds.

THE AC7500 CASH & COIN RECYCLER Maximize your company's operational efficiency by eliminating the need for multiple employees to count and verify cash throughout the day. It accepts, dispenses, and validates cash and coins. It also dispenses starting tills and accepts end-of-day deposits. The AC7500's advanced software lets you monitor your cash inventory securely from any location, putting the entire cash room at your fingertips and enabling visibility of cash and coin status in real time. It lets you transfer funds into one deposit cassette for automated bank deposit preparation. Obtain cash protection and full accountability with the AC7500.

AC-1000 HIGH SPEED DEPOSIT SAFE Designed to optimize cash management in large cannabis and other businesses, this highly secure device safeguards cash against shrinkage and is well suited to handling large quantities of cash. Its advanced performance features 1000 notes per minute, 50 note reject capacity, and a 10 note counterfeit pocket.

AC-100 FRONT OFFICE SMART SAFE This is an intelligent cash deposit solution for small and large cannabis businesses. Remove high value currency from the cash drawer at prescribed times and secure them in the AC-100. It's high speed will process 300 notes per minute and up to 100 notes in its reject pocket.

Smart Safes and Cash Recyclers offer cash protection

Dispensaries handle large amounts of cash that must be kept safe from external threats and internal theft.

An AccuCASH Smart Safe is a deposit-only solution that automates the recording of cash deposits right at point of sale. Smart Safes also can integrate with your company's POS system. Real-time recording of deposits enables fast end-of-day reconciliation by employees. Without the need for manual

counting of cash, employees can focus on higher priority activities within the store.

AccuCASH Cash and Coin Recyclers automate the entire cash cycle: accepting and dispensing cash, storing banknotes and coins securely, and tracking cash-on-hand. The technology in these machines makes transactions, reconciliations, and deposit preparation faster. If your company processes cash in

high volumes and you need cash accounting and dispensing functions, an AccuCASH Cash & Coin Recycler solution answers that need. Utilizing cash recyclers and smart safes, your business has provisional credit and CiT (Cash in Transit) options available.

Cash automation lowers costs and adds to the bottom line. With efficiency gains, many companies have seen ROI in as little as 12 months.

High Security Safes are your last line of defense in uncertain times

International Fortress TL-30X6

Achieves the highest degree of burglary protection in its class. Available in multiple sizes and capacities.
